Nuttall Fire Complex Community Meeting on Monday

The Southwest Area Incident Management Team, in partnership with the Coronado National Forest, will conduct a Nuttall Fire Complex community meeting on Monday evening, July 5, 2004. The meeting will be held at the Ruth Powell School (Media Room) beginning at 6 PM.

The school is located at 1041 14th Avenue in Safford, across the street from the Incident Command Post (ICP) at the Safford High School. Everyone is welcome and encouraged to attend the community meeting.

Fire officials and the Coronado National Forest will give an update on the Nuttall Fire Complex, which includes over 9,000 acres burned in the Nuttall and Gibson Fires.

Thank You for the Generous Outpouring of Support for Firefighters

Residents from communities in Graham and Greenlee counties have expressed an abundance of support for firefighters who have come to the area to work in the Nuttall Fire Complex. Firefighter needs for food and shelter are being met within the incident system, and the fire complex regrets that they are not allowed to accept additional food donations.

The expressions of support and encouragement given through phone calls, notes, cards and signs throughout the area are most appreciated.

For more information, call Nuttall Fire Complex at (928) 348-9425, (928) 348-0261, or (928) 348-4638 between the hours of 7 AM and 9:30 PM or visit www.fireteam-sw.com/oltrogge/incidents/nuttall.
