PROJECT: Miniature ³He Refrigerator Repair

The University of Arizona, Steward Observatory invites you to quote on a firm-fixed price repair for one miniature closed-cycle helium-3 refrigerator. The attached statement of work, G0107-0302-A-SOW, and requirements, G0107-0303-A-REQ are made a part hereof. The award will be based upon cost, and delivery.

Delivery Schedule:

The repair shall be completed within 4 months after receipt of order. If an alternate schedule is bid, please provide a schedule.

F.O.B. Terms:

The University of Arizona, Steward Observatory, Arizona Radio Observatory shall provide transportation of the refrigerator to and from the vendor's site.

Payment Terms:

- The proposal price shall be quoted in US dollars.
- Verifiable progress payments are acceptable and must be requested in the proposal.
- Method of Payment & Discount for Early Payment
The University's preferred method of payment is via credit card. The University would issue a Purchase Order and upon receipt of the requested deliverables, pay subsequent invoices. Please address the following payment term issues in the proposal.
 1. Is payment by credit card acceptable?
 2. What is the offer for an educational and/or early payment discount?
 3. Does a credit card payment qualify for an education and/or early payment discount?

Your bid may be faxed directly to William Hale at (520) 621-5290 or electronically transmitted to
whale@as.arizona.edu
or mailed to the letterhead address attention William Hale.
